## Workshop on Open-Source EDA Technology is Co-located with ICCAD 2018

**WOSET 2018** (<http://woset.org>)

We are happy to announce a new Co-located workshop this year. Workshop on Open-Source EDA Technology is Co-located with ICCAD 2018. Held on Th Nov 8, at the Hilton Resort & Spa, San Diego CA.

This one-day workshop aims to galvanize the open-source EDA movement. The workshop will bring together EDA researchers who are committed to open-source principles to share their experiences and coordinate efforts towards developing a reliable, fully open-source EDA flow. The workshop will feature presentations that overview existing open-source tools, along with a rump session and posters describing future planned EDA tools. The workshop will feature a panel to brainstorm about potential gaps and obstacles to open-source EDA, and how to coordinate efforts and ensure quality and interoperability across open-source tools.

Submissions are to be (2-4 pages) on the following topics:

- Overview of an existing or future open-source EDA tool.
- Overview of support infrastructure (e.g. databases and benchmarks)
- Open-source cloud-based tools
- Design-tool interactions
- Position statements (e.g. critical gaps, blockers/obstacles)

### Important dates:

Sept 1st 2018: submission due date.

Sept 15th 2018: notification due date.

Submission URL: <https://easychair.org/conferences/?conf=woset18>

### Organizers:

Sherief Reda, Brown University Andrew B.

Kahng, UCSD

Sachin Sapatnekar, UMN

Mohamed Shalan, AUC
