Motion passed.

Publicity – Vasilis Pavlidis

Vasilis overviewed the Council's ongoing publicity activities.

The EC was reminded that content can be advertised regularly via social media campaigns.

The Currents newsletter schedule has transitioned from odd to even months of the year.

In order to avoid urgent email communications, it is advised that upcoming conferences, events and other time sensitive items are sent to Vasilis on a quarterly basis.

Standards – Dennis Brophy

Dennis reported on the standards activities.

IEEE SA Audit Committee

- Releasing a baseline of Standards Committee rules
- Focus on standards not yet covered by other Standards Committees

IEEE SA Open

- Connect with CEDA local chapters and academic community
- Standard projects already in pilot-phase: VHDL libraries, OSVVM, UVVM

The potential for IEEE SA and Accellera to sponsor the DAC luncheon was discussed.

DAC Update

A task force has been established for DAC 2020.

Status updates will be provided as the details become available.

Awards

All EC members are encouraged to submit nominations for the Phil Kaufman award by June 30th.

Due to the low number of nominations, it is suggested that CEDA reevaluate whether the Kuh award should be continued in future years.

Activities

Two candidates are currently being considered for ICCAD luncheon talk.

ICCAD 2021 may potentially be held in Germany.

A webinar on Machine Learning on EDA was held on May 7th and attracted over 300 participants.

The next DAWN will be held in early June.

ACTION ITEM: Brooke to research alternative hosting options for the DAWN webinar series and send estimated costs to Yao-Wen and Tsung-Yi prior to June.

The next EC meeting is scheduled for Friday, June 19th at 9:00 am CDT.
