Aims of the Conference:
APS-DAC 2024 is the 29th annual international conference on VLSI design automation in Asia and South Pacific regions, one of the most active regions of design, CAD and fabrication of silicon chips in the world. The conference aims at providing the Asian and South Pacific CAD/DA and Design community with opportunities of presenting recent advances and with forums for future directions in technologies related to design and Electronic Design Automation (EDA). The format of the meeting intends to create and promote a productive and interactive interchange of ideas among EDA researchers and developers and system/circuit designers. All scientists, engineers, and students who are interested in theoretical and practical aspects of VLSI design and design automation are welcomed to APS-DAC. APS-DAC recognizes excellent contributions with the Best Paper Award and 10-Year Retrospective Most Influential Paper Award. Selected papers will be invited to submit the extended version of their work to a Special Issue of Integration, the VLSI Journal.

Areas of Interest:
Original papers in, but not limited to, the following areas are invited.

1. System-Level Modeling and Design Methodology:
   1.1. HW/SW co-design, co-simulation and co-verification
   1.2. System-level design exploration, synthesis, and optimization
   1.3. System-level formal verification
   1.4. System-level modeling, simulation and validation
   1.5. Networks-on-chip and NoC-based system design

2. Embedded, Cyberphysical (CSP), IoT Systems and Software:
   2.1. Many- and multi-core SoC architecture
   2.2. IP-based platform-based SoC design
   2.3. Domain-specific architecture
   2.4. Dependable architecture
   2.5. Cyber physical system
   2.6. Internet of things
   2.7. Kernel, middleware, and virtual machine
   2.8. Compiler and toolchain
   2.9. Real-time system
   2.10. Resource allocation for heterogeneous computing platform
   2.11. Storage software and application
   2.12. Human-computer interface

3. Memory Architecture and Near/In Memory Computing:
   3.1. Storage system and memory architecture
   3.2. On-chip memory architectures and management: Scratchpads, compiler, controlled memories, etc.
   3.3. Memory/storage hierarchies with emerging memory technologies
   3.4. Near-memory and in-memory computing
   3.5. Memory architecture and management for emerging memory technologies

4. Tools and Design Methods with and for Artificial Intelligence (AI):
   4.1. Design method for learning on a chip
   4.2. Deep neural network for EDA
   4.3. Tools and design methodologies for edge AI and TinyML
   4.4. Efficient ML training and inference

5. Hardware Systems and Architectures for AI:
   5.1. Hardware, device, and architecture for deep neural networks
   5.2. System-level design for (deep) neural computing
   5.3. Neural network acceleration co-design techniques
   5.4. Novel reconfigurable architectures including FPGAs for AI/MLs

6. Photonic/RF/Analog-Mixed Signal Design:
   6.1. Analog/digital-signal/RF synthesis
   6.2. Analog layout, verification, and simulation techniques
   6.3. High-frequency electromagnetic simulation of circuit
   6.4. Mixed-signal design consideration
   6.5. Communication and computing using photonics

7. Approximate, Bio-Inspired and Neuromorphic Computing:
   7.1. Circuit and system techniques for approximate and stochastic computing
   7.2. Neuromorphic computing
   7.3. CAD for approximate and stochastic systems
   7.4. CAD for bio-inspired and neuromorphic systems

Authors must submit full-length, original papers, with a maximum of 6 pages in PDF format and are recommended to format their papers based on the IEEE template. APS-DAC does not allow double and/or parallel submissions of similar work to any other conferences, symposia, and journals. The submission must not include information that serves to identify the authors of the manuscript, such as name(s) or affiliation(s) of the author(s), anywhere in the manuscript (except abstracts, references, and bibliographic citations). While research papers with open research papers with open-source software highly encouraged where the software will be made publicly available (via GitHub or similar), the authors’ identities need to be anonymized in the submitted paper for the double-blind review process. Issuing the paper as a technical report, posting the paper on a website, or presenting the paper at a workshop that does not publish formally reviewed proceedings, does not disqualify it from appearing in the final proceedings. Note that each paper shall be accompanied by at least one different conference presentation at the speaker’s registration rate (e.g., two speaker registrations are needed for presenting two accepted papers). But any registered co-author can present the work at the conference. ACM and IEEE reserve the right to exclude a paper from distribution after the conference (e.g., removal from ACM Digital Library and IEEE Xplore) if the paper is not presented at the conference by any author.

Submission of Papers:
Deadline for abstract submission: 5 PM AOE (Anywhere on earth) July 28 (Fri), 2023
Deadline for PDF uploading: 5 PM AOE (Anywhere on earth) July 28 (Fri), 2023
Announcement of accepted manuscript IDs: Sept. 9 (Sat), 2023
Notification of acceptance: Sept. 11 (Mon), 2023
Deadline for final version: 5 PM AOE (Anywhere on earth) Nov. 3 (Fri), 2023

For detailed instructions for submission, please refer to the “Authors’ Guide” at: http://www.aspdac2024.com
Paper submission site: https://bysx.jsys.com/aspdac/cgi/submit_top.cgi

Call for Papers
APS-DAC 2024
http://www.aspdac2024.com/
January 22-25, 2024
S国道Convention, Incheon, South Korea

General Chair: Taewhan Kim (Seoul National University)
Technical Program Chair: Iris Hui-Ru Jiang (National Taiwan University)
Technical Program Vice Chairs: Yu Wang (Tsinghua University), Donseok Jeon (Seoul National University)

Sponsors, Special Sessions, and Tutorials: Sponsors and proposals are welcome and have to be addressed to yu-wang@tsinghua.edu.cn for special sessions & panels, youngsoo@kaist.ac.kr and phc@kookmin.ac.kr for tutorials, no later than Aug 31 (Thu), 2023.
Contact: Conference Secretariat: Dongsuk Jeon, djeon1@snu.ac.kr Program Chair: Iris Hui-Ru Jiang, huirujiang@ntu.edu.tw
