

IEEE Embedded System Letters ((IEEE ESL)

Call for papers

Special Issue on: "**Latest Advances in Embedded Systems Research in Latin America**"

Guest Editors:

Dr. Ariel Lutenberg, University of Buenos Aires (UBA), Argentina

Dr. Gengis Toledo-Ramírez Center for Engineering and Industrial Development (CIDESI), México.

Dr. Luciana De Micco, National University of Mar del Plata (UNMDP), Argentina

Dr. Maria Liz Crespo, Abdus Salam International Centre for Theoretical Physics (ICTP), Italy

Dr. Gustavo Sutter, Autonomous University of Madrid (UAM), Spain

Dr. Fabian Luis Vargas Catholic University (PUCRS) in Porto Alegre, Brazil.

In Latin America, a large number of researchers work in the field of Embedded Systems. Their valuable results got published across their universities and geographical region, though not abroad. Recently, that started to change with events like the Argentine Conference on Embedded Systems (CASE) and their partnership with international publications. In our experience, advances in Embedded Systems made in the region are an exciting contribution to the worldwide scientific community. The potential readers of this Special Issue are researchers, professors, students, and engineers interested in the latest advancements in embedded systems. This Special Issue aims to request the latest unpublished work on embedded systems from academia and industry from Latin America.

The objectives are:

- To disseminate the scientific and technological development done in Latin America to worldwide.
- To promote the development of Embedded Systems worldwide.
- To allow a more fluid exchange between academia and industry in Latin America and worldwide.

Subject Coverage:

Suitable topics include, but are not limited, to the following:

- Embedded software
- Digital Signal Processing for embedded applications
- Modelling of Embedded Systems
- Embedded Systems' Methods and Tools
- Implementation and design of Embedded Systems

Notes for Prospective Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere (N.B. Conference papers may only be submitted if the paper has been completely rewritten, appropriate written permissions have been obtained from any copyright holders of the original paper, and the paper has been extended conceptually by at least 30%).

All papers are refereed through a peer review process.

All papers must be limited to 4 pages written in English. Accepted papers will be required to submit a 3-minute Video Preview, introducing and motivating the paper. For more information, please read [IEEE ESL website](#).

Important Dates

Submission deadline: 1 March, 2022

Notification to authors: 1 April, 2022

Final Manuscript submission: 15 April, 2022

If you have any queries concerning this special issue, please email the Guest Editors:
