

# COINS 2020

## IEEE International Conference on Omni-layer Intelligent systems

### Special Sessions, Workshops, and Panels

July 27-29, 2020  
Barcelona, Spain

## Call for Proposals

The COINS 2020 technical program will highlight a series of Special Sessions, Workshops, and Panels to complement the regular program with new or emerging topics. Proposals must consist of an extended summary of up to 1,500 words in a PDF file, describing the topic, Call for Papers, the organizers/speakers, and the format, and must be submitted by **21 November 2019 23:59:59 CET**. The topics of interests include but are not limited to:

- Architectures and Hardware for Security Applications
- Design of Cyber-Physical Systems
- Dependability, Testing and Fault Tolerance in Digital Systems
- Future Trends in Emerging Technologies
- System Design for Collaborating Intelligent Systems
- Edge Computing and IoT
- 5G and Wireless Technologies and Architectures for IoT and Big Data
- Standardization Framework for IoT
- Emerging Technologies & Trends in Engineering Low Power Networks
- Approximate Computing: Methodologies, Architectures and Algorithms
- Authentication, Identification and Identity Management Technique
- Service-Oriented Computing Systems
- System-Level Design Methodologies and High-Level-Synthesis
- Business Model Innovation and IoT
- Robotics and Industry 4.0
