Research Manuscript Submissions

The Design Automation Conference (DAC) is the premier event to showcase cutting-edge research achievements in the design and design automation of electronic circuits and systems. In addition to a broad range of topics within the domains, Design, EDA, Embedded Systems & Software (ESS), Machine Learning/AI, Security as well as Autonomous Systems and IP, the 2020 edition of DAC is expecting particular interest in DES3.Approximate Computing for AI/ML, DES4.AI/ML System Design, ESS5 Time-Critical System Design and security (SEC1-3) that have been extended and/or redesigned to reflect recent trends. Acceptance rates for manuscript publication are uniform across all topic areas and they have been hovering between 20%-25% for the past several years.

SUBMISSION FORMAT

Stage One: Abstract Submission

- A title, abstract (approximately 100 words), and a list of all co-authors must be submitted by November 21, 2019 (5:00pm MT (-07:00 GMT)). You may also submit the manuscript at this time.
- Authors will be asked to report Conflicts of Interest with TPC members. View more details in the "Conflict of Interest" tab at the top of this page.

Stage Two: Manuscript Submission

- The paper itself (up to 6 pages) is due by November 27, 2019 (5:00pm MT (-07:00 GMT)). Each submitted manuscript must discuss original work that has not been previously published in other indexed research databases.

Authors are responsible for ensuring that their manuscript meets the submission guidelines outlined in the tabs at the top of this page. There will be no opportunity for re-submission to correct any issues.

Your manuscript will be reviewed as a finished manuscript. Preliminary submissions will be at a disadvantage.
