

MPSoC'20, June 19-24th 2022, Hotel “les Fermes de Marie”, Megève, France

Register at <https://mpsoc2022.insight-outside.fr/>

This year, we are organizing an outstanding event for 20th anniversary of MPSoC and we would like to see all those who contributed to the success of MPSoC. We will have a special networking day on Wednesday June 22 where we plan to organize high-level panel sessions with all our speakers from previous years. We have an exceptional program with 60 world-class R&D speakers to cover the key topics for **multicore** architectures targeting **AI and embedded computing**. The experts discuss fundamental and strategic issues to master advanced technologies for **SW vs. HW design** and **semiconductor manufacturing** to build **energy efficient** many-core and **many IP** architectures.

More information on program and registration at: <http://www.mpsoc-forum.org/>. For further assistance, do not hesitate to contact us by email: mpsoc2022@insight-outside.fr
